## BOOK SYNOPSIS

This unique and comprehensive book is an authoritative guide to dermatological conditions for black populations in Africa. As well as being an essential reference for all doctors, healthcare and voluntary workers in Africa, it is of interest throughout the world, given the increase in presentation of such conditions everywhere as a result of intercontinental travel. Conditions are described in a consistent format for ease of use. The book contains over six hundred clear colour pictures of dermatological cases to greatly assist the recognition, diagnosis and treatment of both common and rare skin conditions.
